Maintaining Structural Integrity in Ministry

Guest: Duke Stone
Episode 29: December 2021

In the physical world, the term “structural integrity” means “the ability of a structure to withstand its intended load without failure due to fracture or fatigue.”

Unfortunately, we have recently seen the result of the lack of structural integrity and the devastation that it can bring. As in the physical world, when we cannot withstand our ministry load due to fracture or fatigue, emotional and relational devastation can occur. Studying and memorizing God’s Word are vital ingredients in maintaining our spiritual structural integrity, along with emotional and relational health in ministry.
